Description

A good sized gents Certina wrist watch, 1950s. The watch has a Kurth Frères Certina 330 hand-winding movement which is working nicely. The watch itself measures 37mm diameter excluding the winding crown and the lugs, so a really good size for a watch of this vintage. The case is gold plated and in very nice condition with just the odd minor mark and a thin patch of plate rubbing by the winder. The lens is in lovely condition. The signed dial is in beautiful condition with original elegant dauphine hands, a subsidiary dial and outer minute markers. A later black leather strap with contrasting white stitching has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
