

SA405610

A gents 1950s Rigi bumper automatic wrist watch

Price

Sold

Item Reference: SA405610

Date of manufacture: 1950

Description

A gents 1950s Rigi bumper automatic wrist watch. The watch has a Swiss bumper automatic movement... early automatic watches relied on the rotor 'bumping' backwards and forwards between two springs to maintain the power within the movement. Later automatic watches have the fully rotational rotor. The movement is protected by an inner cover. The watch measures 33.5mm diameter excluding the winding crown and the lugs. The case is plated with a stainless steel screw-on case back. The condition is good with just the odd minor mark and a 0.5cm scratch to the case back. The case back states that the watch is waterproof but, as with any vintage watch, this should not be relied upon. The lens is in good order. The signed dial is in lovely condition. A new brown leather strap has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
