

SA407381

A 1920 Omega gold plated
pocket watch

Price

Sold

Item Reference: SA407381

Date of manufacture: 1920

Description

A 1920s Omega gold plated pocket watch. The watch has a hand-winding movement which is working nicely. The movement is signed with the Omega name and it has the serial number 5,657,067 which dates it back to around 1920. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case was made by the English based watch case maker Aaron Dennison. It is gold plated and the case is generally in good condition; just a couple of small indentations where the loop has pressed on the back, and a little rubbing around the edge of the back. The plastic lens is in good order. The signed white enamel dial has two faint hairline cracks, each about 1cm long, and not too noticeable to the naked eye. Blued steel hands, a subsidiary seconds dial and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
