## 1940s Revue military stem winding pocket watch

Price

**Sold****Item Reference: SA408126****Date of manufacture: 1940**

## Description

A 1940s Revue military stem winding pocket watch. The watch has a stem-winding movement which is working well. The movement is stamped 15 jewels, Swiss Made together with the Revue calibre number 30. The watch measures 51mm diameter excluding the winding stem and the loop. The case front is in good condition while the screw-on back has some surface scratches and a small patch of wear. The back has the GS/TP mark together with the military arrow, or pheon, and also the store code. The S just below the military arrow indicates that the watch was later 'sold out of service' and this ties in nicely with the Bravingtons of London name as they were the High Street retailer who sold off surplus watches between 1946 and 1948. The watch glass is in nice condition. The dial is in good condition with just a little age related darkening. PRICE INCLUDES WORLDWIDE POSTAGE
