Sold

Item Reference: SA408516

Date of manufacture: 1910

Description

An antique galonne cased pocket watch, circa 1910s. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover upon which is a personal engraving, probably Swedish. The watch measures 49mm diameter excluding the winding stem and the loop. The watch has a galonne case which is 800 silver with a rose gold wash on the bezel, centre section and around the hinged case back. The case is in beautiful condition and the engine turned detail on the back is still in lovely crisp condition. The watch glass is in good order. The enamel dial is in beautiful condition with original ornate hands... these hands were very popular with the Scandinavians at the beginning of the 20th Century. Price includes worldwide postage
