Description

A gents 1940s Smiths wrist watch, made in England. The watch has a hand-winding movement, 15 jewels, which is working well. The watch measures 31mm diameter excluding the winding crown and the lugs... it would suit a man with a slimmer wrist or would work as a lady's watch. The case has a stainless steel bezel and back with a plated centre section... the shaped lugs are a particularly charming feature. The lens is in good order. The signed dial is in its original finish and there is some age related discolouration and a very slight unevenness. Blued steel hands, a subsidiary seconds dial and an outer minute track. A new black leather strap has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
