Description

Vintage 1929 silver Swiss pocket watch. The watch has a key-winding movement which is working well. A winding key is included. The movement is protected by an inner cover. The watch measures 51.3 mm diameter excluding the stem and the loop. The case is silver and there are import marks inside the case back for Glasgow 1929. The case has mild bruising to the back and a small "ding" to the bottom of the bezel but overall it is in nice condition for a 1920s piece. The watch glass has light marks but is very acceptable. The white dial is in very nice condition. Original hands, sub seconds dial and an outer minute track. Price includes worldwide postage.
