Description

A Spiral Breguet silver pocket watch, circa 1900. The watch has a stem-winding movement which is working nicely. It has a "Spiral Breguet" which means that the hairspring has a Breguet-style overcoil. The movement is protected by an inner hinged cover. The watch measures 49.5 mm excluding the stem and the loop. The case is .800 silver and there are Swiss hallmarks inside the hinged case back, including the grouse mark. The case has a rose gold wash to the front and back bezels although some of the wash has worn off over the years. The case has a few mild bruises to the outer edge but otherwise it is in good condition and has decorative detail to the back. The plastic lens is in good condition. The white enamel dial is signed Spiral Breguet. The dial has a couple of faint hairline cracks but otherwise it is in nice condition. The watch has ornate hands which add plenty of character. There is also a subsidiary seconds dial and an outer minute track. Price includes worldwide postage.
