Description

Large antique 1882 silver Improved Patent pocket watch. The watch has a key winding movement which is working well. A winding key is included. The movement is numbered 203677 and it has its original dust cover. The watch measures 55.2 mm diameter excluding the winding crown and the loop. The case has Birmingham hallmarks for 1882 with the case makers mark W.G.H (William George Hammon Coventry). The case is in nice condition with only the odd minor mark. The watch lens is glass and has faint surface marks from use. The white enamel dial is signed Improved Patent. It has a couple of small hairline cracks below the sub second dial but otherwise it is in nice condition with original hands. Price includes worldwide postage.
