Description

A WW2 gents Zenith wrist watch. The watch has a 12.4-P hand-winding movement which is working well. The movement is signed and the serial number dates it back to 1941/42. The watch is a good size at 34.5mm diameter excluding the winding crown and the lugs. The case is plated with a stainless steel snap-on case back. There is some pitting / marking to the bezel and some wear to the back of the lugs but overall it is acceptable for a World War 2 piece. The lens is in good condition. The dial has been professionally re-finished (in the UK) to a very high standard. It has its original hands, a subsidiary seconds dial and outer minute markers. A new black leather strap has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
