Sold**Item Reference: SA411090****Date of manufacture: Victorian**

Dimensions

Height = 67 cm (26.4")

Width = 54 cm (21.3")

Depth = 54 cm (21.3")

Description

The images do not do this superb quality bronze chandelier justice and an interested party is welcome to come and look at it by appointment. It is an early electric chandelier and was never made for gas or candles, and it measure 67cm from the very top to the bottom of the large ring and it is approx 54cm wide. It has six curved arms with detailed bronze candle cups and at the top are little bell or flower shapes. It was rewired professionally but will need an up to date PAT test before installation. If the buyer could arrange collection from us in Esher, Surrey or SW London, we will offer a very good discount on the price. Alternatively, please contact us with your postcode for delivery. Thank you.
