

SA412431

Antique gun metal cased pocket watch and albert

Price

Sold**Item Reference: SA412431****Date of manufacture: 1900**

Description

An antique gun metal cased pocket watch with unusual albert and fob. The watch has a good quality stem-winding movement with whiplash regulator. The manufacturers also added damascening to the movement which would have been an extra expense for something that was not seen very often. The movement is protected by an inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is gun metal with gold highlights. There is some minor marking to the case but overall the condition is good. The watch glass has light marking. The white enamel dial is in good condition and has blued enamel hands, a subsidiary seconds dial and an outer minute track. The watch comes on a Victorian albert with a handsome purple stone instead of the traditional T-bar. PRICE INCLUDES WORLDWIDE POSTAGE
