

SA414845

Antique silver fusee pocket watch, 1881

Price

Sold**Item Reference: SA414845****Date of manufacture: 1880**

Description

Antique silver fusee pocket watch. The watch has a fusee (chain driven) movement which is working well and keeping good time to within five minutes over 24 hours. A winding key is included. The movement is protected by an inner fitted cover. The watch measures 50mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside both case backs for London 1881 with a maker's mark for the London based watch case maker Philip Woodman & Sons. The case is in good condition with just the odd mark, and much of the engine turned detail has worn off the case back, just from repeated handling over the years. There is some play in the bezel hinge. The watch glass is in good order. The white enamel dial has a few faint hairline cracks on and around the subsidiary seconds dial. PRICE INCLUDES WORLDWIDE POSTAGE
