Description

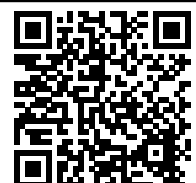

This is an exceptional and beautiful example of a ladies wristwatch made by the world renowned premier Swiss maker Vertex. It has a platinum case and the most exquisite European old cut diamonds which are deeper than modern day cut and are incredibly white, bright and crisp, the sparkle they generate is amazing. The total carat weight is approximately 2.5cts. It also has diamonds to the shoulders which are articulated at one point. The design is very much of the Art Deco period - very stylish and elegant. The dial has been professionally restored so is in absolutely perfect condition with steel peacock blue hands. It also retains its original Swiss made solid 18ct white gold mesh bracelet and clasp. The case is of course marked platinum and has the Swiss Chamois Goat hallmark. It is quite stunning, a new glass has been fitted and the case professionally cleaned and polished so it is absolutely pristine. As you would expect from Vertex the watch is fully marked movement. Vertex are one of the most exclusive makers in the world during the 1930s and this watch certainly has that understated elegance which resonates class. The watch case is large and measures 22mm ...
