Description

An antique Waltham Traveler full hunter pocket watch. The watch has a stem-winding movement which is working well. The movement is signed and it has the serial number 16,591,627 which dates it back to 1908. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is 10ct gold plated and is in good condition with just the odd surface mark, and a little unevenness to the back but nothing too detrimental. The winding crown pushes in to open the front cover. Inside, the lens is in very nice condition. The white enamel dial has some faint hairline cracks to the top half but they are not too noticeable to the naked eye. Blue steel hands, subsidiary seconds dial and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
