Description

A 1940s Record military wrist watch. The watch has a Swiss 15-jewel movement which is working well. The movement is signed RWT for Record Watch Tramelan. The watch itself measures 31.5mm diameter excluding the winding crown and the lugs. The case is stainless steel and the condition is good with just light surface marks. The screw-on case back has the military arrow, or pheon, together with the ATP initials for Army Time Piece. The lens is in good order. The dial has some age related marking but still very easy to read the time. Some of the infill has come out of the hands over time. A new black leather strap has been fitted.
