## Description

A 1920s Tacy full hunter pocket watch together with a double albert and fob. The watch has a stem-winding movement, calibre 998, which is working well. The name Tacy comes from a combination of TAvannes and CYma. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The gold filled case was made by the Keystone Watch Case Company and it is in very nice condition. The winding crown pushes in to open the front cover. Inside there is an acrylic lens over a white enamel dial which has a couple of very faint hairline cracks. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes on a double albert with a handsome fob. PRICE INCLUDES WORLDWIDE POSTAGE
