Description

Good early 19th century 16" long turned wooden canon barrel on later Edwardian oak stand. The barrel has been nicely turned with good detail and could in fact even be 18th century. The barrel has been polished black which looks original. The well made stand has been made in Edwardian times in oak and again shows great detail. Round wooden wheels which do turn. Just a nice object. SIZE; 16" long by 7" wide by 8" high overall CIRCA; Early 19th century with later Edwardian stand
