

SA428276

An antique silver fusee pocket watch and chain

Price

Sold

Item Reference: SA428276

Date of manufacture: 1880

Description

An antique silver fusee pocket watch and chain. The watch has a fusee (chain driven) movement which is working nicely. The movement is protected by an inner fitted cover. A winding key is included. The watch itself measures 48mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside the two cases backs for London 1884 together with a makers' mark for the London case maker James Stockall. The case is in good condition with the engine turned detail still nice and crisp. The back covers opens to reveal an inner cover with an 1885 inscription to the Reverend Davies, from E Jones, Maesycrugiau. The watch glass has a 4mm nibble to the bevelled edge, and the odd minor mark to the main face but nothing too bad at all. The white enamel dial is in nice condition. The minute hand looks a little lumpy if viewed from the side. The watch comes with a silver plated single albert which measures 24cm long including the T-bar and the clasp. PRICE INCLUDES WORLDWIDE POSTAGE
