Antique Havila galonne cased pocket watch

Price

Sold**Item Reference: SA428373****Date of manufacture: 1920**

Description

A galonne cased pocket watch from the Havila Watch Company. The watch has a good quality stem-winding movement which is working nicely. The movement is signed and it has the brevet (or patent) number 9293 which relates to an 1895 patent in the name of Paul Mieville, probably on behalf of the Havila Watch Company. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is a galonne case made of 800 silver (there are Swiss hallmarks inside the case back), together with a rose gold wash around the bezel and also around the edge of the hinged case back. There is some rubbing to the rose gold detail but other than that, the case is in good condition. The inside of the case back is signed with the Havila name. The acrylic lens is in good condition. The signed dial has a good look, and the shaped hands are a particularly handsome feature. There is some damage between 4 and 5. PRICE INCLUDES WORLDWIDE POSTAGE
