Description

A Murano chandelier dating from around 1920, with all the original tall glass flowers and smaller ones that hang over the central bowl. The chandelier is vaseline glass that gives a soft pinky-brown/creamy white/clear tinge that seems to change slightly with the light as all the old Murano glass items do. It is difficult to describe the colour! The chandelier has five arms, three upright flowers, and three drop down leaves, all of which are slotted into position in the central bowl. The light is in very good condition and has been rewired to UK specifications by a qualified electrician. The width of the chandelier at the maximum part is approximately 51cm and from the ceiling hook to the very bottom of the drop it is approximately 56cm. It is wrapped and in storage at the moment as we no longer sell via a retail outlet, but we can arrange a viewing in Surrey by appointment. If delivery is within easy reach of Surrey we could deliver it ourselves, otherwise if the buyer can arrange collection from us, we will pack it safely ready for collection and offer a discount. If it is to be delivered within the UK mainland, we can arrange for a quote for courier delivery...
