An antique silver Omega pocket watch

Price

Sold

Item Reference: SA429337

Date of manufacture: 1910

Description

An antique silver Omega pocket watch. The watch has a stem-winding movement which is working nicely. The movement is signed and it has the serial number 4,247,032 which dates it back to around 1914. The movement is protected by an inner hinged cover which is signed and it has details of medals won at the Paris trade exhibition in 1900. The watch measures 51.5mm diameter excluding the winding stem and the loop. The watch has a galonne case which is 800 silver with a rose gold wash around the bezel and also around the edge of the hinged case back. There is a little rubbing to the rose gold wash but not too bad at all, and the loop at the top of the watch has left marking where it has rubbed on the case. There are Swiss hallmarks inside both of the case backs. The acrylic lens has light marks, but is very acceptable. The white enamel dial has beautifully ornate numbers and it is signed by the original retailer Emil Söderlund of Upsala (Sweden)... the dial is in very nice condition. The ornate hands were very popular in the Scandinavian countries at the beginning of the 20th Century. PRICE INCLUDES WORLDWIDE POSTAGE
