

SA429576

A 1920s Omega pocket watch and chain

Price

Sold**Item Reference: SA429576****Date of manufacture: 1920**

Description

A 1920s Omega pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is signed and it has the serial number 6,852,617 which dates it back to the late 1920s. The movement is protected by an inner hinged cover. The watch itself measures 53mm diameter excluding the winding stem and the loop so slightly larger than the standard 50mm pocket watch. The nickel case is in good condition and the inner case back has the early Omega logo. The watch glass is in good condition with just light marks but barely noticeable to the naked eye. The white enamel dial has a 1cm chip to the edge by number 2, and some short faint hairline cracks, but most of the damage is covered by the bezel. The numbers are unusually bold on this dial, making it a very easy watch to read. The watch comes with a single albert which measures 26.5cm long including the T-bar and the clasp. **PRICE INCLUDES WORLDWIDE POSTAGE**
