Description

I haven't ever come across this type of Trumps Marker before in the form of a cube with reticulated engine-turned panels made from silver plate, marked EPNS (Electro-Plated Nickel Silver). The panels have the four suits plus two "No Trumps" panels. The maker is also marked "Registration Applied For", referring to the design registration. Dating to around 1900 / 1910, this most unusual example remains in excellent condition measuring 1 1/2" cube. Item ID:39003 FREE Worldwide Registered Airmail Directly From London, England
