

SA431097

An antique Omega pocket watch & chain

Price

Sold**Item Reference: SA431097****Date of manufacture: 1900**

Description

An antique Omega pocket watch & chain. The watch has a good quality stem-winding movement which is working nicely. The movement has the serial number 1716715 which dates it back to the early 1900s. The movement is protected by an inner hinged cover. The watch itself measures 50.5mm diameter excluding the winding stem and the loop. The case is in good condition for its age with just light surface marking from use. The inside of the case back has the early Omega stamp. The watch lens is plastic and is in nice condition. The white enamel has an old repair to the outer edge between 3 & 4 o'clock but otherwise it is in nice condition. The watch has blued steel hands. The watch comes on a vintage chain which measures 30cm including the T bar and clasp. Price includes worldwide postage.
