Description

A superior quality kidney shaped desk by the renowned London cabinet makers, Edwards and Roberts. Of fine construction in desirable satinwood with inlaid stringing and cross banded in tulip wood. The stunning satinwood veneers are applied onto a solid mahogany carcass, a sign of real quality. The top is fitted with a sumptuous hand-dyed leather. There are two banks of 4 graduated drawers, flanking the longer central drawer. All drawers are fitted with their original brass swan-neck handles and are lockable (key supplied). The desk stands on tapering legs which terminate in their original brass castors. The inlaid detailing and cross banding continues to the sides and rear of the desk so that it could be free standing within a room if desired. We have had this desk sympathetically repolished by our craftsmen to a very high standard. It is now offered for sale in excellent condition, with a marvelous colour and patina. Dimensions: Width 123cms Depth 65cms Height 77cms

Edwards & Roberts was founded in 1845, and had premises at 21 Wardour Street London. By 1892 they occupied more than a dozen buildings in Wardour Street, where they continued to trade until the end of the c...
