Description

Good mid 19th century cast iron and brass model cannon in very good original condition. The nice shape cast iron carriage has all its original painted decoration although much of it is worn and missing. The beautiful barrel is heavy cast brass and is a great shape with a coat of arms to the top. It looks to me that this cannon is a working model, maybe a starting cannon. SIZE; 20" long by 7" wide by 9" high CIRCA; 1820
