

SA432680

An antique Elgin full hunter pocket watch, 1897

Price

Sold

Item Reference: SA432680

Date of manufacture: 1890

Description

An antique Elgin full hunter pocket watch. The watch has a stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 6,671,387 which dates it back to 1897. It is protected by an inner hinged cover. The watch measures 53mm diameter excluding the winding stem and the loop. The case is gold filled and is nicely detailed to both the front and back with engine turned detail, and a large vacant cartouche to the front. There is a pin-prick sized indentation to the front. The patterned centre section is a charming feature. The winding crown presses in to release the front cover. Inside there is an acrylic lens which has very minor marking but is very acceptable. The white enamel dial has a few short hairline cracks around the edge but nothing too detrimental. Blued steel hands (initially lever set), a subsidiary seconds dial and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
