Description

Very stylish & original antique Biedermeier circular dining or centre table with a tilt top. I believe this table dates from the 1810-30 period & it's in good condition. It has a satin birch top with an ebonised edge which sits on an octagonal column. This sits on a platform base. There are ebony shaped supports joining the column to the base & ebony feet. This stunning table is in good condition & has lots of character too. There are various old markings & indentations within the surface, but any signs of age are part of its unique character and should not be considered as imperfections. Width - 40", 101 cm Height - 30", 76 cm
