Description

This pair of fine quality brass lamps date from around 1920-1940. They are a heavy, solid brass, with no sign of damage or wear, and weigh approximately 1.7 kgs each. The lamps are 58cm in height to the very top, or 53cm up to the square at the top of the column. The base of each is 14cm square, and with the four lion's claw feet included, they are 19cm square. They are in excellent condition and were polished and lacquered by the previous owner, but our electrician totally rewired all of them using flex cable and fitted with an on-line switch. They are priced at £595 per pair and this includes postage and packing within the UK mainland only, and for delivery in outside areas or abroad, please contact us for a quote. Alternatively, the lamps can be viewed in Surrey by appointment as we no longer trade through a retail outlet.
