Description

Circa 1910-1930, this tall brass wall lantern is very similar to the other one we have for sale, but this one is slightly smaller. The original makers label LONDON LAMP CO is just under the glass - (see photos). The lamp measures 62cm in length; the wall bracket has ready drilled holes for easy fitting, and measures 11cm in length. There are six glass panes around the light, each with an etched flower burst. The sections of glass measure 10cm in width and they are 21cm in length. One section open to allow easy access for lightbulbs, and we have had the lamp totally rewired the light to comply with UK specifications. The price includes postage and packing within the UK mainland only, and for delivery elsewhere please contact us for a quote.
