

SA437289

An antique full hunter pocket watch

Price

Sold**Item Reference: SA437289****Date of manufacture: 1920**

Description

An antique full hunter pocket watch. The watch has a good quality Dreadnought stem-winding movement, with jewelled pallets, a whiplash regulator and damascening, which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made the Illinois Watch Case Company. Although it is a very good fit and it all sits nicely, we suspect that the case and movement did not start life together. The case is in good condition. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in good condition, over a white enamel dial which is also in good condition. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. PRICE INCLUDES WORLDWIDE POSTAGE
