Description

Late Georgian mahogany mule chest originating from the Welsh Cheshire borders c.1800. As a mule is a cross between a donkey and a horse so the mule chest combines a traditional chest or coffer with a chest of drawers. Lift the top to reveal storage space behind the top three dummy drawer fronts, over a row of three small working drawers and single long drawer in the base. A good looking example of the form with inlaid and crossbanded top and drawer fronts, reeded faux columns to the sides, a good spread of original brass swan neck handles and escutcheon plates and tall bracket feet. Panelled sides and rear. Excellent colour and condition, cleaned and polished in our workshops. Details Dimensions: width 62", depth 20", height 32". Year: c.1800 Stock Number: 29858
