An antique Cyma pocket watch,
circa 1910s

Price

Sold

Item Reference: SA439488

Date of manufacture: 1910

Description

An antique Cyma pocket watch, circa 1910s. The watch has a 15-jewel stem-winding movement, calibre 971, which is working well. The movement is signed Cyma. The watch itself measures 56mm diameter excluding the winding stem and the loop so a little larger than the standard 50mm pocket watches. The nickel case has a semi-hermetic case with screw-on back and bezel, a nice sign of quality. The watch glass has a few little marks and minor nibbles to the bevelled edge but overall it is very acceptable. The signed white enamel dial is in good condition with sturdy blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. PRICE INCLUDES WORLDWIDE POSTAGE
