An antique Swiss open faced
pocket watch

Price

Sold

Item Reference: SA439517

Date of manufacture: 1920

Description

An antique Swiss open faced pocket watch. The watch has a stem-winding movement, with 15 jewels, which is working nicely. The watch measures 50mm diameter excluding the winding stem and the loop. The case was made in England and is gold plated. It was usual for Swiss movements to be imported into the UK and then they were subsequently cased and sold onto jewellers and retailers. A previous owner's initials have been engraved very tastefully into the case back. A later acrylic lens has been fitted. The white enamel dial is in good condition, with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. PRICE INCLUDES WORLDWIDE POSTAGE
