Description

Here we have a beautifully elaborate Victorian sideboard / server in excellent condition. It is rare that we find Serpentine pieces, and this one is truly an outstanding example. Made in Yorkshire from English pine, this would have been used in an old farmhouse kitchen. Nowadays they also work very well in a dining room as well as the kitchen. The name serpentine comes from the wavy shape in the piece of furniture, in this case along the top and front. The serpentine front is actually two large drawers - a lovely feature to this sideboard!. Below are a further four smaller drawers, two each side of a small cupboard. The brass drop handles are the original and suit the piece very well. Stripped to the bare wood exposing a very clean and tidy surface, now ready for wax polishing. The price includes our professional wax polishing service. Height 36.5", width 71", depth 22
