

SA439680**1930s pocket watch, Laminor Watch Co**

Price

Sold**Item Reference: SA439680****Date of manufacture: 1930**

Description

A vintage pocket watch from the Laminor Watch Company. This particular watch has a Cyma stem-winding movement, calibre 919 with 15 jewels, which is working nicely. The winding wheel is signed with the Laminor name which suggests they bought the Cyma movement in to finish, case and sell on for subsequent retail. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is 10ct gold plated and was made in England by Aaron Dennison. The front of the case is in good condition while the hinged case back has a series of small and fairly shallow indentations. The watch glass is in good condition. The white enamel dial is in good condition, just a small patch of hairlines next to number 11 but not too detrimental at all. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. THE PRICE INCLUDES WORLDWIDE SHIPPING
