Description

A 1920s Waltham full hunter pocket watch. The watch has a stem-winding movement which is working well. The movement is signed and it has the serial number 22740526 which dates it back to 1924. The movement is protected by an inner hinged cover. The watch measures 50.7mm diameter excluding the winding stem and the loop. The case is gold plated and is the Star model made by the English based case maker Aaron Dennison who previously worked at Waltham. The case is in nice condition with only light surface marks from use and a small "ding" to the back cover. The case has monogrammed initials on the front cover. The winding crown pushes in to open the front cover. Inside is a plastic lens which is in good condition. The dial is signed Waltham, U.S.A. The dial has a faint hairline crack between 1 & 2 o'clock although hardly noticeable but otherwise it is in nice condition. The watch has its original blued steel hands. The watch comes in a new presentation box.
