

SA441449

Antique silver Omega pocket watch and chain

Price

Sold**Item Reference: SA441449****Date of manufacture: 1910**

Description

Antique silver Omega pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega name. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are Swiss hallmarks inside the case back together with the early Omega stamp and also the serial number which dates the piece back to around 1910. There is some fairly gentle unevenness to the back but overall the case is in good condition for its age. The watch glass has minor marking but is very acceptable. The white enamel dial is in lovely condition. The watch comes with a silver single chain which measures 32cm long including the T-bar and the clasp. Each of the links has the lion passant silver mark and there is a date mark on the T-bar for 1900. The watch will be sent in a new presentation box. PRICE INCLUDES WORLDWIDE SHIPPING
