Sold

Item Reference: SA443043

Date of manufacture: 1910

Description

Antique 1910s Swiss silver pocket watch. The watch has a good quality nicely jewelled 3/4 plate lever set stem-winding movement which is working well. The movement is stamped Swiss. The movement is protected by an inner cover. The watch measures 47.6 mm diameter excluding the stem and the loop. The case is Swiss .935 silver and there are Swiss .935 silver marks on the inner and outer covers. The case has light surface marking from use and the odd small "ding" but overall is in nice condition for a 1910s piece. The watch glass has the odd minor mark but overall it is in nice condition. The white dial has a very faint hairline crack between the centre and 1 o'clock although hardly noticeable but otherwise it is in nice condition. The watch has blued steel hands. The watch will come in a new presentation box. Price includes worldwide postage.
