A gents 9ct gold Elgin gents
wrist watch, 1920

Price

Sold

Item Reference: SA444398

Date of manufacture: 1920

Description

A 9 carat gold Elgin gents wrist watch. The watch has a hand-winding movement, grade 298, which is working nicely. The movement is signed and the serial number 18,282,853 which dates it back to 1915. The watch itself measures 32mm diameter excluding the winding stem and the fixed lugs. The case is 9 carat gold and there are hallmarks inside the hinged case back for Birmingham 1920. As the import duty on precious metals was very high at the time, it was usual for movements to be imported from the US for casing within the UK, in this case by the Dennison Watch Case Company. The case is in good condition with just a little unevenness to the back. The watch glass is in good condition. The signed white enamel dial has several fairly faint hairline cracks and a little discolouration to the subsidiary seconds dial. A new leather strap has been fitted. The watch will be sent in a new presentation box. FREE WORLDWIDE POSTAGE
