Description

It's been some time since I have had a calendar this size made from solid English Oak with good markings, a rich colour and good patina; standing 10 1/2" tall, one of seven I have just purchased from a private collection. The four metallic knobs to each side are used to move forward and rewind the day, date and month behind the three glazed apertures. All in full working order. Excellent condition, the footprint measuring 8" x 3 1/2" and standing 10 1/2" tall. Item ID:39026 FREE Worldwide Registered Airmail Directly From London, England
