Description

This superb heavy 'Leaf-Shaped' SOLID SILVER DISH has a 'Bark' effect interior and stands on three 'Flower Bud' feet with a raised 'Stem-Shaped' handle. The dish was made by Hukin & Heath in 1894 and was designed in the manner of Dr Christopher Dresser, who designed for Hukin & Heath in the late 19th. Century. It has a typical stylised floral leaf, handle and feet design, a reflection of his botanist background together with the typical Japanese influence present in many of his designs. In excellent condition, it would make a superb gift or add to any collection. (Dr. Christopher Dresser - (4 July 1834 in Glasgow - 24 November 1904 in Mulhouse) was a designer and design theorist, now widely known as one of the first and most important, independent, designers and was a pivotal figure in the Aesthetic Movement, and a major contributor to the allied Anglo-Japanese or Modern English style; both originated in England and had long lasting international influence.) *****
