Dimensions

Height = 72 cm (28.3")

Width = 62 cm (24.4")

Depth = 62 cm (24.4")

Description

FINE small size early George III / George II Cuban mahogany "birdcage" tilt top tripod table. Beautiful piece of timber used on the top with early feature of the edge being "under-moulded". Nice shape tripod base with turned column and original birdcage mechanism which allows the top to be turned. The table has a great original patination and is a lovely colour. The wedge (as usual) is an old replacement as is also the brass catch otherwise very good condition for age. It is unusual to get a Birdcage tripod quite as small as this, they are normally much larger. SIZE; 24" diameter top. 28" high CIRCA; 1750 - 1760
