Date of manufacture: 1900

Description

An antique Waltham full hunter pocket watch. The watch has a stem-winding movement which is working nicely. The movement is fully signed and the serial number dates the watch back to 1907. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Dennison Watch Case Company. It has a few small shallow "dings", and some unevenness to the back. The winding stem pushes in to open the front cover. Inside there is a glass lens which is in good condition. The signed white enamel dial is in beautiful condition, with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. FREE WORLDWIDE POSTAGE
