Description

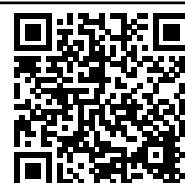

A Georgian Flame Mahogany Chest on Chest, with Inlay to the Cornice. This superb piece of furniture dates from around 1800, it was a greatly favoured piece in its day because of the great amount of storage it gives. The chest stands on bracket shaped feet, the base section has two long drawers and the upper section has two short over three longer graduated drawers. The top of the piece is set off with a plain regency style cornice which has a boxwood and ebony inlay decoration to the front. The chest has brass oval plate handles and elegant Ivory escutcheons. The chest was made as an alcove piece, as the sides are in pine and have never been veneered, these have shrunk somewhat over the last 200 years but it does not affect the beauty of the piece from the front view. A superb piece of Country House Chic and it is beautifully proportioned and will look just as well in a country cottage. The chest stands 67" high, it is 40" wide and 20" deep. RB73.
