Description

Antique 1902 Waltham pocket watch. The watch has a stem-winding movement which is working well. The movement is signed A.W.W.Co, Waltham, Mass, 15 jewels and it has the serial number which dates it back to 1902. The watch measures 50.9mm diameter excluding the winding stem and the loop. The case is the Fortune model made by The American Watch Case Company. The case has minor surface marks from use and light wear to the edges on the back but overall is very acceptable for an antique piece. The lens is plastic and has faint surface marks from use but overall it is in nice condition. The signed dial has a couple of faint hairline cracks but otherwise it is in nice condition. The watch has its original blued steel hands. The watch comes in a new presentation box. Price includes worldwide postage.
