Description

A gents 1940s Omega wrist watch. The watch has a calibre 283 hand-winding movement which is working nicely. The movement is signed with the Omega name and the serial number dates the watch back to around 1948. The watch itself is a good size at 36mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in very nice condition for a 1940s piece with just minor surface marking. The winding crown is a later non-Omega replacement. The inside of the case back has the Omega triangular stamp, together with the case reference 2504-5 which is correct for the calibre 283 movement. The lens is in good condition. The signed dial has a little marking and some discolouration but very acceptable. Feuille shaped hands, centre seconds hand and outer minute markers. A new leather strap has been fitted. The watch will be sent in a new presentation box. FREE WORLDWIDE SHIPPING
