

SA463652

An antique Zenith pocket watch and chain

Price

Sold

Item Reference: SA463652

Date of manufacture: 1910

Description

An antique Zenith pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is signed with the Zenith name and the serial number of 2384511 dates it back to 1919. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case was made by Aaron Dennison and it is the Moon model which is 10ct gold plated and was originally "guaranteed to wear 20 years". There are scratches to the inside of both of the back lids, and to the movement cover. The case has minor surface marks but overall is in nice condition for its age. The watch glass has minor marks but is very acceptable. The white enamel dial has a couple of marks but they only show at certain angles. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a double albert with each chain measuring 22cm long including the T-bar and the clasp. There is also a swivel with a bloodstone and carnelian. The watch will be sent in a new presentation box. Free worldwide shipping
