

SA463674

Antique 1910s Swiss silver pocket watch.

Price

Sold

Item Reference: SA463674

Date of manufacture: 1910

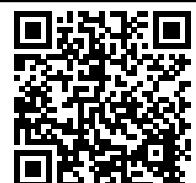

Description

Antique 1910s Swiss silver pocket watch. The watch has a nice quality 3/4 plate pin set stem-winding movement which is working well. The movement is numbered 10934. The movement is protected by an inner cover. The watch measures 50.5 mm diameter excluding the stem and the loop. The case is Swiss .935 silver which is purer than English sterling silver and has Swiss silver marks on the inner and outer covers. The case has light surface marking from use and a small indentation to the centre of the back but overall is in nice condition for a 1910s piece. The watch glass has a small nibble to the bottom edge but overall it is in nice condition. The white dial is in nice condition with only the odd minor mark. The watch has blued steel hands. The watch will come in a new presentation box. Price includes worldwide postage.
